DEMAND PLANNER | FORECASTING & S&OP LEADER

Demand planning leader with 10+ years of experience driving forecast accuracy, inventory efficiency, and S&OP alignment across multi-channel environments. Proven track record building statistical forecasting models, managing WAPE and bias, and translating demand signals into actionable inventory and supply decisions across DTC, Amazon, and wholesale channels.

WORK EXPERIENCE

Viega LLC — Senior Demand Planner

June 2025 – Present | Broomfield, CO

- Own SKU-level demand forecasting for the company's largest portfolio, consolidating historical demand, seasonality, and commercial inputs into a single consensus operating forecast
- Lead monthly S&OP demand reviews with Sales and Operations, clearly framing forecast risks, channel opportunities, and drivers of change
- Improved forecast accuracy by ~10%, sustaining >80% WAPE across portfolio; managed bias systematically to prevent over- and under-forecasting
- Built anomaly detection model (standard deviation + kurtosis) to identify non-organic ordering behavior and prevent downstream supply distortion

Viega LLC — Senior Supply Planner

June 2024 – June 2025

- Owned inventory strategy end-to-end, including safety stock, inventory targets, and replenishment logic
- Built Power BI-driven statistical safety stock engine, reducing excess inventory by ~5%
- Developed scalable inventory target framework integrating safety stock and lot-size logic
- Ensured inventory positioning supported fulfillment performance and service levels

MIGG Consulting / SupplyCaddy — Principal / Interim Director of Logistics

Sept 2023 – June 2024 | Remote

- Owned fulfillment operations across domestic and international networks, including 3PL performance, inventory flow, and order execution
- Managed 3PL partners against defined service expectations (speed, accuracy, receiving), improving time-to-serve by ~15%
- Led ERP/OMS implementation, defining workflows and ensuring data integrity across operations, inventory, and finance
- Reduced warehousing and fulfillment costs by ~5% through process improvements and partner negotiation
- Built processes to improve order accuracy and systematically resolve fulfillment issues

Forum Brands — Supply Chain Specialist

Dec 2021 – Dec 2022 | New York, NY / Remote

- Planned and managed demand across 4 international markets and 7 fulfillment locations, supporting channel allocation across Amazon, DTC, and wholesale accounts
- Maintained <1% out-of-stock rate during peak demand and COVID disruption through pre-season forecasting and inventory positioning across channels
- Led demand planning and launch of Amazon Canada, driving ~10% incremental revenue
- Built SQL/Looker dashboards and automated reporting, improving forecast vs. actual visibility and decision speed
- Automated shipment tracking processes, eliminating 15+ hours of manual work weekly

Unilever — Transportation Specialist

Dec 2020 – Dec 2021 | Remote

- Managed carrier performance against delivery KPIs and service expectations
- Built exception management tool for outbound shipments, reducing manual tracking by ~100 hours per week
- Improved shipment visibility and accountability across network

Unilever — Factory Transportation Planner

May 2020 – Dec 2020

- Coordinated transportation planning across 30+ manufacturing sites
- Identified and resolved SAP/TMS execution issues impacting operations

Cargo Systems — Supply Chain Associate

Apr 2019 – Jan 2020 | New York, NY

- Managed end-to-end supply chain execution for campaigns generating \$6M+ in revenue
- Managed 3PL warehouse partners and led warehouse transition, delivering ~\$60K annual savings
- Reduced delivery times by ~60% through carrier renegotiation and process improvements
- Built returns and refurbishment strategy, reusing 10,000+ devices and generating \$100K+ in savings

HelloFresh — Analyst, Supply Chain Planning & Analytics

Jan 2018 – Apr 2019 | New York, NY

- Built and managed data structures supporting forecasting, procurement, and fulfillment operations
- Improved produce quality by ~20% across three fulfillment centers

Samsung Electronics America — Financial Analyst (Operations)

Oct 2016 – Jan 2018 | NJ

- Managed \$15M+ in logistics and warehousing costs
- Partnered with 50+ vendors to ensure adherence to operational KPIs and budgets
